

# Congratulations to the Class of 2002

In honouring the students who represent our highest academic achievers, we also are honouring the richness and diversity of MGGS and the contributions that the Class of 2002 has made to the School in a wide range of domains. We are reminded that MGGS strives to encourage students to be involved and also to be individuals. The sum of our Year 12 is the celebration of the VCE results, as well as that myriad of activities undertaken by our students, both as a year group and individually.

Whilst the achievements for many students are very obvious in terms of grades and numbers, there are the many achievements of students who have met their personal goals: we may not know these but, as a community, we celebrate with them too.

It is with considerable pride that I noted that 51.2% of the year group scored in the top 10% of the State. It is with considerable pride, too, that I remind myself that we remain an open entry school.

I commend the Class of 2002 on their achievements and pay tribute to our staff. Highly professional, eminently qualified and totally dedicated to the welfare of each student, their excellence as teachers is mirrored in the achievements of the Year 12 students who have graduated from MGGS this year.

As the class of 2002 prepares to move to the excitement of new challenges in tertiary studies, we congratulate them for results that saw, this year, higher than ever standards at MGGS.

As a School, we proudly salute all our students and wish them well in their future endeavours.

Christine Briggs - Principal
